4. FIRST AID MEASURES

Inhalation:	Remove to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth.
Skin Contact:	Wash thoroughly with soap and water. Remove any contaminated clothing and wash before reuse. Should irritation develop get medical attention.
Eye Contact:	Remove contact lenses. Immediately flush with plenty of water for at least 15 minutes, holding eyelids apart to ensure flushing of the entire surface. Seek medical attention.
Ingestion:	Do NOT induce vomiting. No harmful effects expected.
Notes To Physician:	Toxicology studies have shown similar material to be of very low toxicity. There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.
