

# ConTec TS-926

## DESCRIPTION

**ConTec TS-926** integral water-repellant and efflorescence control agent was formulated to enhance the overall integrity of concrete masonry and hardscape products while minimizing unit cost. Used properly, this unique hybrid admixture enhances concrete plasticity, cement efficiency, color vibrancy, and efflorescence control. **ConTec TS-926** is an optional component of the Tech Shield Water-Repellent Admixture System for concrete masonry construction.

## APPLICATION

**ConTec TS-926** is recommended for use in the production of concrete block, pavers, SRWs, manufactured stone veneer, and ornamental cast stone.

## PACKAGING

**ConTec TS-926** is available in totes and drums. An ICT representative will determine the proper dispensing system for your operation.

## TYPICAL PROPERTIES

Form.....	Milky White Liquid
Color / Odor.....	White / Slight
Density (lb./gal.).....	8.5
pH.....	8-9

## FEATURES / BENEFITS

- Increases production rate
- Improves product consistency
- Reduces absorption & wicking
- Greatly reduces efflorescence
- Increases freeze-thaw durability
- Provides lasting water repellency

## HANDLING / STORAGE

**ConTec TS-926** must be stored at moderate temperatures and away from direct sun. Never allow this product to freeze. When stored properly, **ConTec TS-926** has a shelf life of 6 months. Avoid creating an aerosol or mist that could be inhaled.

## ADDITION RATES

**ConTec TS-926** has a recommended dosage range of 1-4 oz/cwt (65-260ml/100kg) of cementitious materials. Consult your ICT representative for specific recommendations by application.
